

# POLTI SANI SYSTEM BUSINESS

## PATENTED APPLIANCE FOR DISINFECTION OF SURFACES AND ENVIRONMENTS.

**POLTI SANI SYSTEM BUSINESS** is a steam disinfection appliance for all surfaces and fabrics that uses only tap water, without chemical disinfectants. Designed and built entirely in Italy.

**It's ideal for small environments**, such as offices, clinics, cabins, studios, beauty centres, cars ... Its compact dimensions make it easy to use even in limited spaces.

The patented **Superheated Chamber** technology generates superheated dry saturated steam inside the Polti Sani System Business dispenser which reaches a temperature of up to 180°C at the outlet, **capable of killing up to 99.999%\* of viruses, germs, bacteria, fungi and spores**. The steam is almost completely free of liquid particles and comes out diffusely in the form of a cloud, enveloping the surfaces to be sanitized, which will dry quickly.

**Disinfection therefore occurs without contact**, Polti Sani System Business can be used on all surfaces, fabrics and objects and can be directed to even the most difficult corners.

During the dispensing phase, the steam is mixed with the **HPMed detergent** which completes the disinfectant action. HPMed acts as an adjuvant for the sanitizing action of steam, it can be used in the presence of people and animals and is effective against bad odours.

MADE IN ITALY

- ▶ Patented Superheated Chamber technology for superheated dry saturated steam at an outlet temperature up to 180°C.
- ▶ Max pressure 4 bar.
- ▶ Pressure gauge.
- ▶ Safety cap.
- ▶ Stainless steel boiler (AISI 304).
- ▶ Connection for single-dose bottle of HPMed detergent under the dispenser.
- ▶ Spacer/stand integrated in the gun
- ▶ Ergonomic handle with soft-touch rubber insert.
- ▶ Steam delivery button with safety lock.
- ▶ 4 swivel wheels

12 50 ml bottles of HPMed included in the package

HPMed is a detergent to be used in combination with Polti Sani System Business as an adjuvant to the sanitizing action.

HPMed is classified as non-hazardous, therefore it can be used in the presence of people and animals. It's also able to eliminate bad odours.

## TECHNICAL DATA

Power supply	220 - 240 V ~ 50/60 Hz
Boiler	Stainless steel AISI 304
Boiler capacity	2 l
Boiler pressure	Max 4 bar
Boiler power	1500 W
Max power	2250 W
Dimensions	Ø 32x34 cm
Weight	4,9 Kg
Product code	PTEU0303 - PTGB0084

## ACCESSORIES INCLUDED

- ▶ 12 50ml disposable bottles of HP MED + 1 extra empty bottle.
- ▶ 15 wicks
- ▶ Straight flow concentrator accessory
- ▶ Curved flow concentrator accessory
- ▶ 12 vials Kalstop
- ▶ Brass brush for cleaning the steam nozzle
- ▶ Jug
- ▶ Disinfection protocol
- ▶ Funnel

THE SATURATED DRY SUPERHEATED STEAM, UP TO 180°C, GENERATED INSIDE THE POLTI SANI SYSTEM DISPENSER KILLS UP TO 99.999%\* OF VIRUSES, GERMS, BACTERIA, FUNGI AND SPORES. IT IS ALSO AN EFFECTIVE SOLUTION AGAINST BED BUGS. \*\*

IN A FEW SECONDS, BREAKS DOWN THE BACTERIAL, FUNGAL AND VIRAL LOAD.

SAFE: THE HP MED AND STEAM MIX CAN BE DELIVERED IN THE PRESENCE OF PEOPLE.

RAPIDITY OF APPLICATION AND ACTION.

NO CONTACT WITH SURFACES = NO RISK OF CONTAMINATION.

UNIVERSAL METHOD FOR ANY KIND OF SURFACE.

DOES NOT CAUSE ANY DAMAGE TO SURFACES.

TOTAL ACTION: IT CAN ALSO REACH LESS ACCESSIBLE CORNERS.

EVAPORATES IMMEDIATELY, WITHOUT ADDITIONAL TREATMENT AND WITHOUT LEAVING RESIDUES

## COMPATIBLE ACCESSORIES

### POLTI STEAM CLEANING KIT

To transform Polti Sani System Business into a perfect steam cleaner.

CODE PAEU0269

### POLTI FLUID CURVE ACCESSORY IRON

To transform Polti Sani System Business into a perfect steam iron with boiler.

CODE PFEU0035

\*Tests carried out by third party and independent laboratories attest that the Polti Sani System kills up to 99.999% of viruses, germs, bacteria, fungi and spores.

\*\*Tests carried out by third party and independent laboratories attest that the Polti Sani System kills 100% of the eggs and 90% of the adult bed bugs already at the first passage.
